    - Infectious / Symptomatic / Wearing Mask

Employees/customers/attendees who may have been possibly exposed during these dates/timeframes should monitor for COVID-19 symptoms for 14 days from the date of exposure. Symptoms of COVID-19 illness may include: fever, cough, shortness of breath/difficulty breathing, chills, muscle pain, headache, sore throat, new loss of taste or smell. Anyone with concerns about this possible exposure, or anyone with symptoms are advised to contact their healthcare provider for further directions.

Protection for yourself and others include: proper/frequent handwashing, cleaning frequently used surfaces, staying at home when you are sick, avoiding contact with people who are sick, coughing/sneezing into tissues, wearing a mask when in public, not gathering in large groups, and maintaining a six (6) foot distance between yourself and another person.
